Continuation of 4(e) Other: The amendments to independent claim 7 are improper because it contain limitations which are not underlined and limitations that were present in the previous claim 7 but cancelled now are not striked through. The claim 7 received on 1/30/08 recites "copying the recovery log from the on-line transaction processing (OLTP) system." The previous claim 7 filed with RCE do not recite "the on-line transaction processing (OLTP) system," therefore these amendments should be underlined. Further the previous claim 7 recites "said change data indicating at least one modification that has been performed to a source object" but it is not present in the claims or striked through to cancel this limitation. Appropriate corrections are required.
